

PALISADE CONCEPTS AND H&S GUN CLUB

Palisade Concepts has teamed up with the folks at H&S gun club to begin offering select workshops and seminars at no cost to H&S members.

WORKSHOPS

Want to improve your speed or accuracy with the AR15?

Come to our **foundational rifle workshop** where you'll train with and be coached by experienced law enforcement and military instructors.

Do you have the medical skills needed to save a loved one from a gunshot wound or other penetrating trauma? Come learn from a tactical paramedic.

These workshops are your opportunity to learn the skills needed to be a shepherd of your family and community.

Workshops are low-stress, fundamental-based blocks designed to build what we call performance on demand.

ABOUT US

Palisade concepts was founded on the principle that personal defense is not only an inalienable right, but it is also the duty and responsibility of every American.

Our instructors share decades of experience in both the military and law enforcement. Most importantly, our team members have decades of experience teaching military and law enforcement organizations across the US.

We take pride in the advancement and progression of our students and seek to grow a thriving performance-based community here at H&S.

POSITION RIFLE WORKSHOP AT H&S GUN CLUB

JANUARY 27

This workshop will focus on building proper structural support for rifle firing positions.

The workshop will start with confirming zero and a discussion of optimal zero distances and the effect of sight over bore offset.

We'll be working on accuracy and speed in the field positions like prone, kneeling, standing, and use of improvised rests.

The workshop is open to all levels of shooters who would like to improve their skills.

Attendees will need the following:

-  Semi-auto carbine (AR15 or similar)
-  Two point sling
-  Three magazines
-  100 rounds (minimum)
-  Ear and eye protection
